since 2015

Sports furniture

From the very beginning our vision was to develop something unique, something that we could be proud of, something that could blend so perfectly into everybody's life. We developed BenchK sports furniture.

BenchK is a team of people committed to building a healthy future. We know the pressures of modern life require a new approach to health and fitness. We know that a healthy lifestyle starts from a young age and continues through adulthood. We know that the choices we make we pass down to the next generation. That's why BenchK is the right choice.

Made to the highest quality, with perfect functionality BenchK wall bars are the piece of sports furniture that no home should be without.

BenchK is an investment for health and the future.

We would love you to become an ambassador for BenchK.

Gymnastic ladder - probably the most universal sport item in the world, was invented in Sweden where it is called „ribbstol”, which literally means „a frame with crosspieces”.

Pehr Henrik Ling

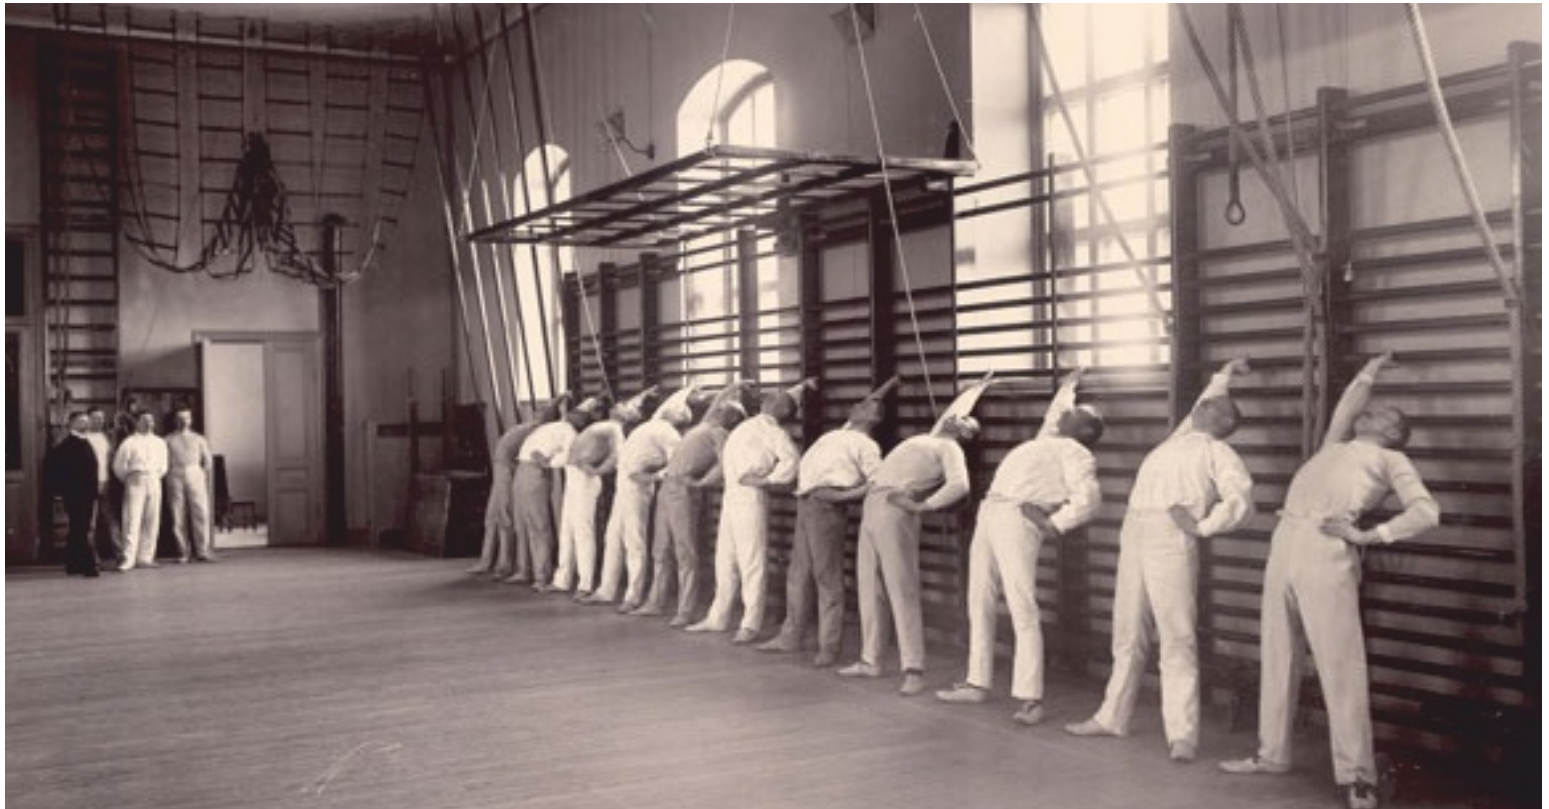

The Swedish ladder became the basis for a gymnastic system developed by Pehr Henrik Ling (1776-1839). The poet, playwright and fencing teacher, Ling wished to create a physical preparation system that would contribute to the upbringing of a harmonious personality. As a staunch patriot, Ling hoped that his system would help Swedes regain strength and the will of their ancestors to restore the country's former military glory. In 1813, with the permission of Swedish king Charles XIII, Ling founded the Central Gymnastics Institute in Stockholm, the first university in Sweden which specialized in educating Physical Education teachers for the army and schools. After Ling's death, his son Hjalmar continued with Swedish gymnastics and its famous attributes: the gymnastic ladder, the balance beam and the bench. Thanks to him, they became popular all over the world.

BenchK modified an ordinary Swedish ladder and created a more functional and durable sport device for contemporary people.

BenchK's mission is to promote „ladder gym” worldwide. We want BenchK wall bars to become an affordable and indispensable aid in the pursuit of a healthy lifestyle everywhere people are. BenchK strives to provide everyone with the opportunity to take care of their own physical and psychological form. BenchK are convinced that the sports corner will become an essential element of every apartment, house, gym, hotels, kindergarden and many more.

BenchK multifunctional wall bars meet strict safety standards and can be useful in hotels, professional gyms and rehabilitation centers.

BenchK 112

Benchk wall bars make everyday life easier.

They are designed in such a way that they do not take up much space and serve not only as exercise equipment but also beautiful furniture.

BenchK 112 + BenchTop

BenchK series 110
wall bars made of solid
beech wood.

Thanks to the benchtop
placed on the pull-up
bar, the bar can easily
serve as a desk for
standing and sitting
work, for a child and for
an adult.

A room for children that
parents will also love.

Create a space
that fits your life.

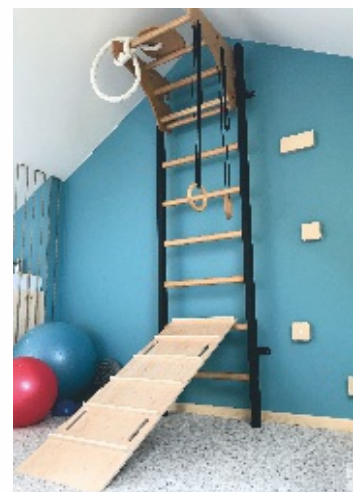

BenchK 111

People use BenchK furniture in a creative way
and we are all for it because BenchK furniture is multi-functional.

BenchK 212B

In Benchk products,
it's the details that are
important:
pleasant and warm wood
combined with solid and
stylish metalwork.

BenchK 212B

Thanks to the modern technologies used in the production of the new generation BenchK wall bars, BenchK are not only sports equipment but sports furniture which meet the requirements of the modern home.

BenchK 222B

**Who said that in a
small space you cannot
have everything?**

**If you can only invest in
one thing at home -
invest in health.**

BenchK 310B

Which wall bar is right for you?

Choose a wall bar that is the right height - allow 30-40 cm of headroom above the pull bar.

BenchK 512

In Series BenchK 410/510
the top rung is positioned
8 cm from the profiles and
is integrated into the
pull up bar.

BenchK Dip Bar DB510
also function
as a barbell holder.

BenchK 413

You never know what tomorrow will bring.

But no matter where your life takes you, your ceiling-floor mounted gymnastic wall bar can move with you.

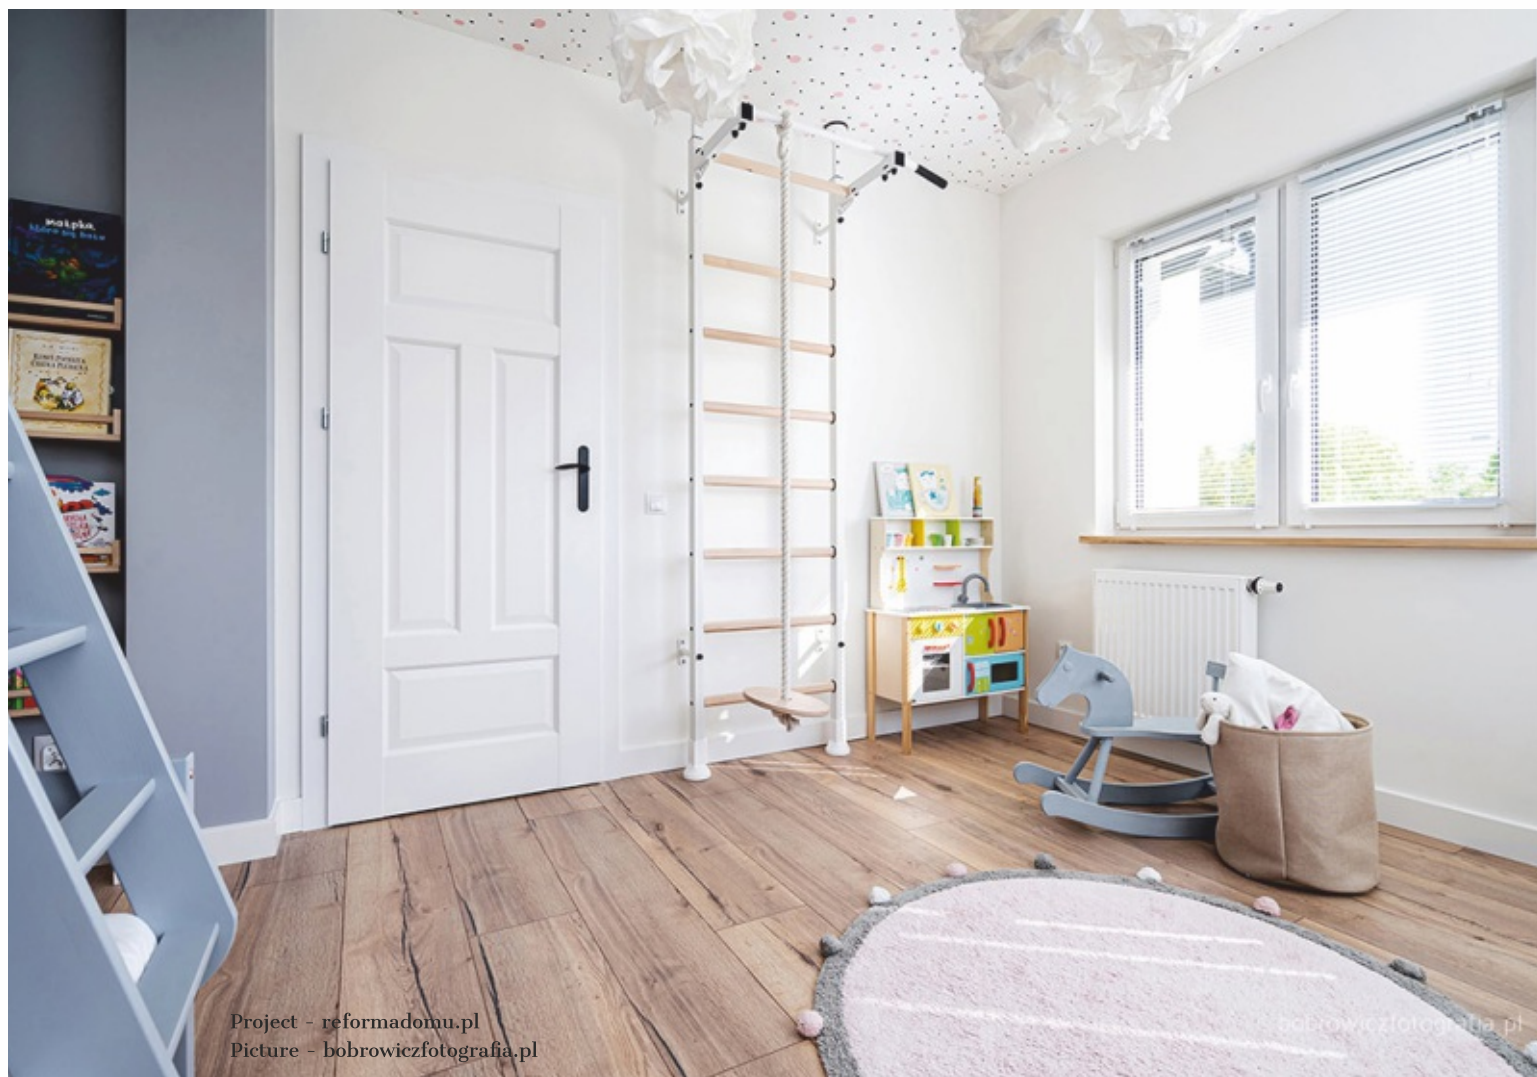

BenchK 412

For wall mounting a minimum depth of wall of 15 cm is required.

Series BenchK 410 and BenchK 510 do not require wall mounting. Thanks to the ceiling - floor mounting, there is no need to drill holes.

Create a safe and healthy environment for your child.
BenchK source 100% of raw materials from Poland
including Polish beech wood, which is double oiled with child safe organic oil.

BenchK 221W + DB 310W/710W

Create your own wall bar.

If you cannot find a wall bar that fully suits you, create your own.

At BenchK all the equipment is compatible across the range, which means you can combine accessories from different series in the right way for you.

BenchK 311B+A/076

Family time.
Time for yourself.
Party time.

With a BenchK wall bar there
is time for everything.

BenchK 311B

Children want to be where their parents are.
Therefore, make the time spent with your
child effective for yourself and for your comfort.
Fun and safety are an integral part of BenchK design.

A good idea is to create a smaller copy of the
"adult" workplace. In this way, all the housemates
can be together: work together and practice together.

BenchK 413

BenchK 711W

Make room to live...

Think about what your day looks like, what you love to do, what you dream about.

Then go ahead and make it a reality in your perfect place.

A place for passion, for sport, for living -
we need this every day just as we need oxygen to breathe.

BenchK 712W

A wall bar made in Poland conforming
to European safety standards
PN-EN 12346:2001, PN-EN 913:2019-03
for gymnastic equipment.

All designs have been issued
Registered Community Design
certificates by EUIPO.

BenchK 712B

BenchK 513

Do not be afraid to bend the rules to create a home or office that will match you and your life.

BenchK D8 2 in 1 Pull Up Bar

Incorporating the functionality and quality of BenchK wall bars
in a more compact design.
With just 4 small hooks on the wall, multiple
training options are possible.
